

HAIR

Patrick Dempsey, 48

“Grey’s Anatomy”’s Dr. McDreamy “has an adolescent hairline that men envy,” says Dr. Robert Leonard, a leading expert on hair and transplant solutions from the New England area. “He has the full head of hair and hairline of a teenager which is amazing. In order to get close to that look on someone else, we could perform a hair transplant operation taking follicles of hair from the back of the head to fill in the front where the hairline tends to recede. That would cost between \$5,500 to \$15,000, depending on how many follicles we’d have to transplant.”

EYES

Zac Efron, 26

The former teen idol’s bedroom eyes are stunning, says Dr. William Bruno, a noted Beverly Hills-based cosmetic surgeon, because he has a “sharply defined upper eyelid that’s desirable and youthful looking.” A blepharoplasty procedure, or upper and lower eyelift, can re-create this look to remove excess skin for about \$3,500 to \$5,000. To get those baby-blue peepers, Bruno suggests wearing tinted contact lenses.

CHEEKS

George Clooney, 53

The “Ocean’s Eleven” hunk’s classically handsome looks come, in part, from his perfectly contoured cheekbones. “His cheeks are round and full but not too high,” says Dr. William Bruno, a noted Beverly Hills-based cosmetic surgeon. Cheek augmentation can be achieved with silicone implants for \$3,500 to \$5,000 or with fillers such as Radiesse or Juvederm for \$800–\$1,500.

NOSE

Brad Pitt, 50

The handsome actor’s nose fits his face perfectly, says Wiener. “It’s what we call a rugged man’s nose,” he says. “Most men want noses that fit their face well without a hint of femininity. There should be a strong bridge without a bump and a 90 degree angle between the tip of the nose and the upper lip.” Rhinoplasty surgery costs around \$6,000 to \$8,000.

JAW & CHIN

Justin Timberlake, 33

The singing sensation has “a strong jaw line and just the right projection to the skin,” says Dr. Greg Wiener, a board certified expert who adds that Timberlake has a near perfect facial proportion for a man. Many of the newer chin implants have lateral extensions to contour the jawline as well. “Often we add liposuction to the neck and even to the jawline to remove excess skin, to bring out the natural bone structure.” The cost can be anywhere from \$4,000 to \$8,000 depending on what is done.

LIPS

Channing Tatum, 34

For a man, the “21 Jump Street” heartthrob has got the ideal lip look, says Bruno – a fuller lower lip that makes him most appealing. “Men typically don’t want to have their upper lips too full,” he says. Injectable fillers such as Juvederm or Restylane can be used to achieve this look for \$500–\$800. Fat grafting is another option to augment the lips and can cost \$1,500 to \$2,000.
